

Masel 600 Series Pliers

5-YEAR TIP WARRANTY!

- Stainless Steel with hardened steel inserted tips
- Modern Brushed Satin finish

Time tested and still our best selling plier series, the Masel 600 Series offers superior performance in a wide range of styles. Inserts are securely set with our new brazing process, and our new box-joint fabricating technique prevents "wobble" or "tip by-pass." Each plier is individually engineered to exact specifications and carries a 5-year warranty against breakage of the inserted tip, along with our lifetime warranty on the forging. Our 700 Series with replaceable tips also carry this same warranty.

Distal End Cutters

#619 Long Handle Distal End Cutter With Safety Hold

Extra length handle gives you superior control when cutting behind second molars, along with greater visibility of the oral cavity. Will not fray multi-strand wires. **Our best seller!**

ITEM# 4150-619

●	.012" to .020"
■	Up to .018" x .025"
⊗	.0155" to .0215"
⊠	Up to .018" x .025"

#608 Small Distal End Flush Cutter With Safety Hold

Cuts and holds round and rectangular wires with ease. Cuts .014" to .018" round and .016" x .022" to .017" x .022" rectangular wire.

ITEM# 4150-608 Small

●	.014" to .018"
■	Up to .017" x .022"

#609 Standard Distal End Flush Cutter With Safety Hold

Cuts and holds with ease. Design eliminates the need for a holding spring. Cuts round .014" to .018" and .016" x .022" to .022" x .025" rectangular wire.

ITEM# 4150-609 Standard

●	.014" to .018"
■	Up to .017" x .022"

#621 Flush-Cut Safety Hold Distal End Cutter

This standard size plier gives you superior control when cutting behind second molars, along with greater visibility of the oral cavity. Spring-rod prevents tissue impingement and maintains greater tension for longer spring life.

ITEM# 4150-621

●	.012" to .018"
■	Up to .022" x .028"

#617 Safety Hold Distal End Cutter

Finely balanced with fatigue-free operation. Works on hard round, rectangular and braided wires. Safety hold eliminates flying wire shards. Cuts and holds securely in one quick operation.

ITEM# 4150-617

●	.012" to .020"
■	Up to .022" x .028"
⊗	.0155" to .0215"
⊠	Up to .021" x .025"

#618 Miniature Safety Hold Distal End Cutter

Compact design gives greater range of motion in tight areas. Same safety hold feature as standard size model. 110mm in length.

ITEM# 4150-618

●	.012" to .020"
■	Up to .018" x .025"
⊗	.0155" to .0215"
⊠	Up to .018" x .025"

Pin and Ligature Cutters

#607 Ligature Cutter With 30° Angled Tip

New 30° angled tip provides easier access to difficult-to-reach areas. Small cutting edges for easy access around the wings.

ITEM# 4150-607

	Soft Wires
	.010" to .014"

#603 Micro Miniature Pin & Ligature Cutter

Even smaller than #602. Compact size tip means easier access and offers better control. Ideal for young patients.

ITEM# 4150-603

	Soft Wires
	.010" to .014"

#610 Hard Wire Cutter

Hardened cutting edges make short work of hard round and rectangular wires. Slightly larger head size for increased durability, standard handle length for a sure, non-slip grip.

ITEM# 4150-610

	.012" to .020"
	Up to .022" x .028"
	.0155" to .0215"
	Up to .021" x .025"

#605 Pin and Ligature Cutter

The best of both worlds—small cutting head for better mobility and view of operative site plus full sized handles for better heft and feel. Tapered tips easily reach difficult areas.

ITEM# 4150-605

	Soft Wires
	.010" to .018"

#601 Standard Pin and Ligature Cutter With 30° Angle

Ideal for clean, flush cuts on pins and soft wire. Standard size tip and plier body offers maximum comfort for large hands.

ITEM# 4150-601

	Soft Wires
	.010" to .018"

#604 Micro Ligature Cutter

Overall dimensions are 10% smaller than our standard Pin and Ligature Cutter. That means easier access in small mouths, and fatigue-free comfort for clinicians with smaller hands. Our smallest model.

ITEM# 4150-604

	Soft Wires
	.010" to .018"

#602 Miniature Pin and Ligature Cutter

Compact, extra narrow head and small body size allow easy access under bracket flange.

ITEM# 4150-602

	Soft Wires
	.010" to .014"

#611 Slim Nose Plier/Ligature Cutter with 15° Angle

Slim 15° nose design allows easy access under bracket tie wings for fast, sure and easy cutting of ligatures. Tapered profile and tip slant makes cutting a snap.

ITEM# 4150-611

	Soft Wires
	.010" to .018"

Bird Beak Pliers

#634 Secure Hold Bird Beak

Without Cutter

Whether you're working with round or rectangular wire, these pliers give you a remarkably stable platform for difficult-to-fabricate clasps thanks to the serrated, non-slip surface of the flat beak and a closing groove.

ITEM# 4150-634

● .012" to .030"	● .030"
■ Up to .022" x .028"	■ .040"

#632 & #633 Light Wire Bird Beak Plier

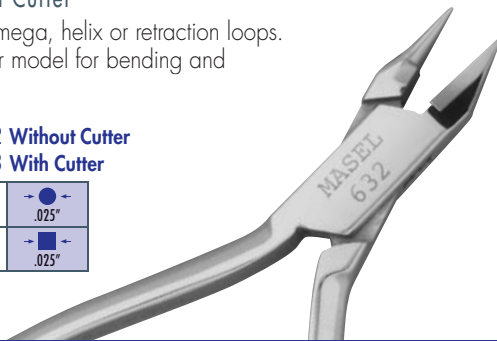

With or Without Cutter

For fabricating omega, helix or retraction loops. Choose the cutter model for bending and cutting wires.

ITEM# 4150-632 Without Cutter

ITEM# 4150-633 With Cutter

● .012" to .020"	● .025"
■ Up to .016" x .022"	■ .025"

#630 Bird Beak Plier

Without Cutter

Facilitates bending round or rectangular wires. This versatile instrument features hardened inserts on all bending surfaces, a sure non-slip grip, and long-lasting jaw alignment for unmatched precision.

ITEM# 4150-630

● .012" to .030"	● .035"
■ Up to .022" x .028"	■ .035"

#635 & #636 Bird Beak Plier (light wire)

With Cutter, With or Without Grooves

This instrument allows you to bend, shape & cut without changing tools. Groove in tip grips wire to facilitate deep contouring & detailing.

ITEM# 4150-635 Without Grooves

ITEM# 4150-636 With Grooves

● .014" to .025"	● .025"
■ Up to .022" x .028"	■ .025"

#638 Mid-Size Light Wire Bird Beak Plier

Light wire forming plier is ideal for configuring helix loops & hooks. Forms round and rectangular wire.

ITEM# 4150-638

● .014" to .025"	● .025"
■ Up to .022" x .028"	■ .025"

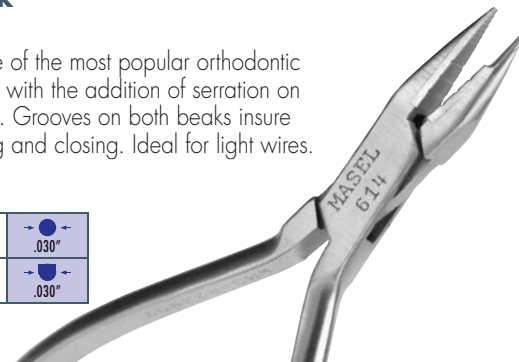

#614 Jarabak

Without Cutter

We've made one of the most popular orthodontic pliers even better with the addition of serration on the flat jaw insert. Grooves on both beaks insure accurate bending and closing. Ideal for light wires.

ITEM# 4150-614

● .012" to .020"	● .030"
■ Up to .016" x .022"	■ .030"

#626 Jarabak

With Cutter

Precision matched tips enable precise wire bends. A diamond-honed cutter at the base of the beak will cut and bend wires quickly and easily. Grooves insure accurate bending and closing of loops.

ITEM# 4150-626

● .012" to .020"	● .030"
■ Up to .016" x .022"	■ .030"
